

Seatmann.

Why does Office Furniture all look the same?

Why are the most exciting areas of an office space still stuck with the same old design options? These are problems that we are seeking solutions to.

We Pursue Originality

At Seatmann, we pursue originality. In a crowded segment that relies heavily on legacy designs, we take inspiration from everyday objects to create original designs that are *fresh* in their forms yet *familiar* in their shape.

A Fresh Offering

Our Product Offering includes Original Design Loose Furniture Collections, Phone Booths that offer Class A Sound Proofing and Ergonomic Monitor Arms that provide all day viewing comfort.

ORIGINAL DESIGNS

Loose Furniture

Original Designs

FRESH. FAMILIAR.

In a crowded segment that relies heavily on legacy designs, Seatmann takes inspiration from everyday objects to create original designs that are fresh in their forms yet familiar in their shape.
